Re: Application for Permit #63-33975; Well Drilling Fee Upgrade

Dear Ryan and Ursula:

For an update on your application, I am preparing to send it to advertising, the next step in the process. I noticed your current well was drilled as a domestic use well. Since your water right application proposes irrigation use from a well drilled as domestic use, and will now be used for irrigation, an upgrade fee is needed per Idaho Administrative Code (copy of that code enclosed). A domestic well drilling fee is \$75, whereas an irrigation well drilling fee is \$200.

An upgrade fee of \$125 is needed for your well. The Department will not hold up processing your application for permit without receiving the fee, but ultimately the fee will be required before your right can become a license. The point of this letter is to notify of this requirement.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Nicholas Van Dyke

Nick,

I have attached the signed and dated version of the corrected application. I have also attached out 2014 Canyon County Tax bill that shows my name and property address, I hope that will work. If not let me know and I can try to unbury the deed. Let me know if there is any thing else I can do to help.

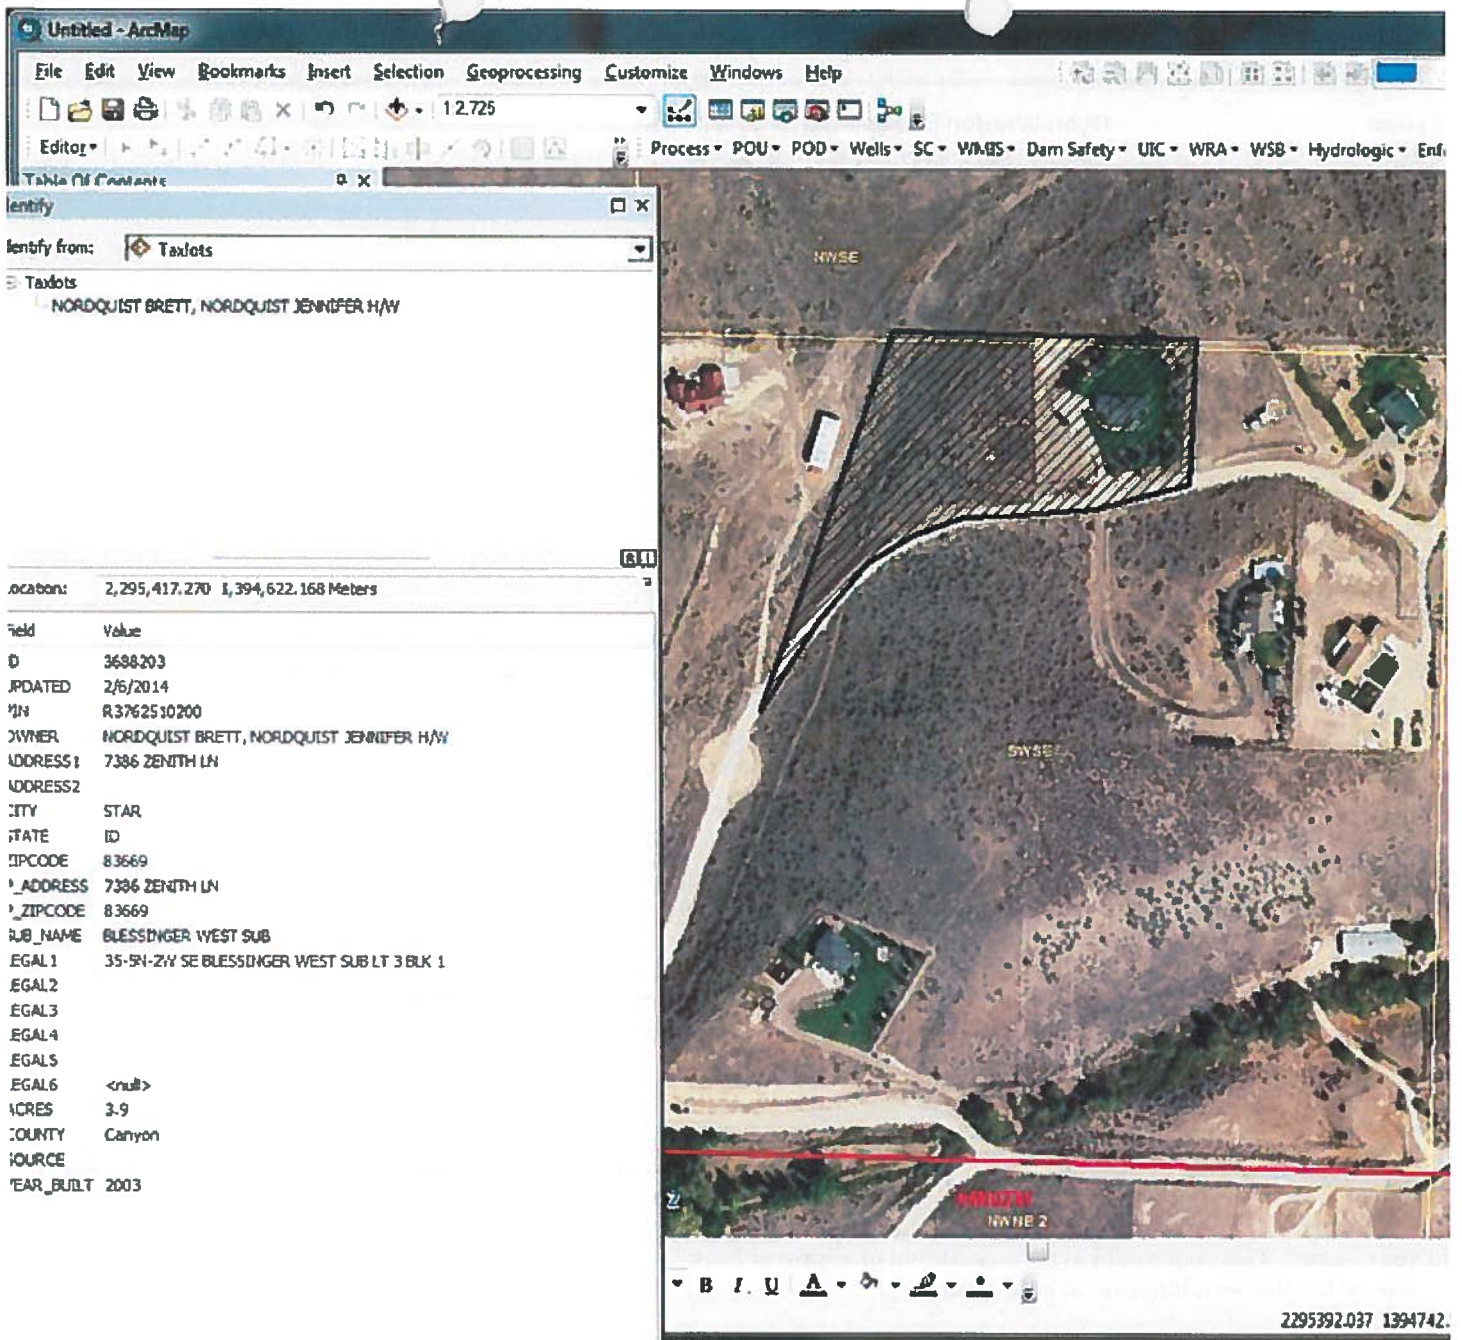

Thanks,
Ryan Warden

Hello Ryan and Ursula,

I have started reviewing your application for three acres of irrigation outside of Star. There are a couple of items that need addressed before I can forward your application to advertisement in the local paper, the next step. It appears you may have misidentified the 40 acre tract descriptions for the point of diversion and place of use in the grid/box areas of the application. Those should list the SW of the SE, which matches the map you submitted (map being correct). Attached is a copy of the application you submitted (notice areas of highlight), along with an amended version I drafted with changes made. If you agree with these changes, please sign, date, and return to me. No additional fees apply.

Also, on page two of the application, part 10, it's stated applicant owns the property. Looking at recent (this past February) Canyon Co. taxlot data (see screen shot below), last name Nordquist is owner of record for that parcel. I realize property may have changed ownership since then to your name. Would you be able to provide a copy of ownership deed showing said parcel in your name? This step would avoid a condition of approval from being placed on the permit. Not a show stopper, but more or less makes the permit approval look cleaner.

Feel free to contact me with any questions you might have.
