WESTERN REGION**

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 63-33977**AMENDED**

1. Name of applicant(s)
- Andrea Larson, Kyle Larson
- Phone
- 907-687-4123

Name connector (check one): ☐ and ☐ or ☐ and/orMailing address 1860 S Canonero WayCity BoiseState ID Zip 83709 Email heainc@att.net

2. Source of water supply ground water which is a tributary of n/a
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
03N	01E	22			SE	NW	Ada	ground water	

4. Water will be used for the following purposes:

Amount 0.13 cfs for irrigation purposes from 3/1 to 11/15 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.13 cfs for diversion to storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.3 af for aesthetic storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.1 af for stockwater storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a)
- 0.13
- cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. A water system to produce up to 58 gal/min with a water line extending north connecting to already established flood irrigation systemb. Height of storage dam n/a feet; active reservoir capacity n/a acre-feet; total reservoir capacity n/a acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ Noc. Proposed well diameter is 8 inches; proposed depth of well is _____ feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ Noe. If well is already drilled, when? n/a; drilling firm n/a;
well was drilled for (well owner) n/a; Drilling Permit No. n/a

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. n/ab. Stockwatering; list number and kind of livestock. 1 or 2 cowsc. Municipal; complete and attach the Municipal Water Right Application Checklist.d. Domestic; show number of households separate well for house

e. Other; describe fully. _____

8. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below.
See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
03N	01E	22					2.8			1.4									4.2

Total number of acres to be irrigated: 4.2

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

This property currently has 2.47" of irrigation district water rights from Nampa Meridian Irrigation District. Canal shares - 2.47"

10. a. Who owns the property at the point of diversion? Kyle Larson & Andrea Larson

b. Who owns the land to be irrigated or place of use? Kyle Larson & Andrea Larson

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:
n/a

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

We propose to install an irrigation well as backup irrigation system for an orchard, vineyard, and crops in the event that Nampa flood irrigation levels are low. We also propose to fill a small diversion pond (year round) to support 1-2 head of livestock drinking needs, grow rice & water-loving edible plants, and aid in wildlife habitat & wetland improvement. Pond schematic attached.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Total Acres: 19

Water bearing zone to be appropriated is from 1 to 80 feet. Applicant proposes supplemental irrigation of 16 acres within the proposed place of use.

PROPOSED CHANGE OF WATER RIGHTS

Warm Springs Ditch Co. of 1840 N. Lakes Ave., Meridian, ID, 83646, filed Application No. **79654** to transfer three water rights with 1876 to 1889 priority dates from the Boise River totaling 7.76 cfs. The purpose of the transfer is to change the nature of use for 3.5 acres, 0.07 cfs and 10.2 af to aesthetic storage and diversion to storage uses. The proposed change will mitigate for evaporative losses from the ponds in Banbury Meadows. An application for permit 63-34002 was filed for the Banbury pond system. Water will be used in the Warm Springs Ditch Co. service area in the Banbury Meadows subdivision located south of W. Colchester Drive, west of N. Locust Grove Road and east of S. Eagle Road.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at 208-334-2190; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#New_Listings. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 4/6/2015. The protestant must also send a copy of the protest to the applicant.

Subject: RE: application for water permit no 63-33977
Attachments: DOC004.pdf

Kyle/Andrea,

Attached is your revised application we discussed earlier today. I did leave on page 1 part 7.e. blank – I couldn't type/fit everything you had written on the original. You can add if you would like, but it's really not needed since the uses are described on part 4 and your narrative on page two does just fine.

Some things of note:

- I also included stockwater storage use on part 4 since you indicated you may have 1-2 cows drinking from the pond. The 0.1 acre-feet amount is the minimal we can account for. But I would suggest having it on there since it could be a beneficial use developed under this permit.
- Though the amended app now lists volume amounts under part 4, the volume amount for part 5 (totals) should be left blank. Reason being is if 0.3 af was listed there, it would limit total volume under the permit to 0.3 af – basically negating any irrigation that could be put to use. At the time of licensing the permit, total volume would most likely be 19.2 af (4.2 acres * 4.5 af per acre standard + 0.3 af aesthetic/stock storage).
- I forgot to mention when you visited the office – wells in your area must pull water from a depth greater than 200 feet. There can be no water taken from a depth less than 200 feet – most local well drillers should be aware of this requirement. I mention this because I noticed a proposed depth of 185 feet is listed.

Feel free to call /email with any questions.

Mr. and Mrs. Larson,

I have begun reviewing your application for permit to appropriate ground water to supplement surface water delivery on your property. There are several items that will need changed in order to continue processing. I find it easiest to meet in person to go over changes in applications if that works for you. If not, I can lay these items out in a letter. Please let me know how you would like to proceed.
