

OCT 29 2014

WATER RESOURCES
WESTERN REGION

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

1. Name of applicant(s) ZACH AND/OR TRESH BEUTLER Phone 208-251-8839
Name connector (check one): ☒ and ☐ or ☒ and/or
Mailing address 1203 LA REATA WAY City MEADLERTON
State IDAHO Zip 83644 Email zhughbeutler@gmail.com
2. Source of water supply GROUND WATER which is a tributary of _____
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
5N	3W	11			SE	NW	CANYON	GROUND WATER	EXISTING WELL
5N	3W	11			SE	NW	CANYON	GROUND WATER	PROPOSED WELL

4. Water will be used for the following purposes:
Amount 1.3 for IRRIGATION purposes from MAR 15 to NOV 15 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 1.3 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).
6. Proposed diverting works:
a. Describe type and size of devices used to divert water from the source. 140 HP WELL, UNDER GROUND 6" MAIN
TO WHEEL LINE & HAND LINE. EXISTING WELL IS 100 HP W/ SAME SET UP FOR CURRENT
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
c. Proposed well diameter is 16 inches; proposed depth of well is 515 feet.
d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
e. If well is already drilled, when? JAN 1967; drilling firm GEORGE POST PETE COPE; well was drilled for (well owner) _____; Drilling Permit No. _____
7. Description of proposed uses (if irrigation only, go to item 8):
a. Hydropower; show total feet of head and proposed capacity in kW. _____
b. Stockwatering; list number and kind of livestock. _____
c. Municipal; complete and attach the Municipal Water Right Application Checklist.
d. Domestic; show number of households _____
e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
SN	3W	11			1		23	40	35	38	18								155

Total number of acres to be irrigated: 155

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

63-3563 & 63-31093

10. a. Who owns the property at the point of diversion? ZACH & TRESH BEUTLER
- b. Who owns the land to be irrigated or place of use? ZACH & TRESH BEUTLER
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

WANT TO BRING EXISTING WATER RIGHTS UP TO 1 INCH/ACRE. WE ALSO WANT TO IRRIGATE THE TOTAL PROPERTY OF 155 ACRES VS. THE CURRENT 127 ACRES WE HAVE RIGHTS FOR. HOPE TO USE EXISTING WELL BUT IF NEEDED MY OWN ANOTHER TO PRODUCE THE NEEDED WATER. WATER BEARING ZONE EQUALS 311 - 500

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Danie please print and file this email.

thanks

Danie,

Per our conversation today I am sending this written request to you. We are asking that our application be expedited at this time. We submitted it on October 29th 2014 with payment and were informed we would have answers in 4-6 months. We understand that your office is understaffed at this time and would just ask that our application be processed as soon as possible. We need to make decisions based on this that will impact this year's growing season.

Thank you for your help and consideration.

Zach and Trish Beutler

Re: Application for permit clarification

Dear Beutlers,

The purpose of this letter is to clarify information related to the application for permit 63-34004 you submitted on October 29, 2014.

Your application requests two points of diversion located in the SENW corner of 5N3W11. Per our conversation on February 19, 2015, it was my understanding that you are no longer planning on drilling a new well and will only require one well. This could change your application and requires some clarification on how to proceed. There are two options.

1. You may choose to remove one of the wells from your application. If you are sure that you only wish to use your existing well, we can remove the proposed well from the application and can advertise the request showing only one well.
2. You may choose to leave both wells on your application. This would give you the flexibility of deciding whether or not you drill a new well in the five year development period you requested on your application.

We at the Department of Water Resources recommend leaving both wells on your application. At the time of licensing, agents will compare the permit and beneficial use exam and will issue a water right for the lesser number of points of diversions. If you do not drill a new well prior to the beneficial use exam, we can remove the proposed well from your right during this process.

Please submit the requested information for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications. You may call the Western office and provide the needed information over the phone or you may email me at danie.merriman@idwr.idaho.gov.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Danie Merriman
