1. ☐ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☒ Change period of use ☐ Other _____

2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

See attachment

This transfer proposes to rearrange a portion of 13-2224's place of use. It also adds a point of diversion and updates the ownership.

13-7476 overlaps 13-2224 on 13 acres proposed for rearrangement in the NESW of Section 23, and 2 acres in the NWSE. Those 15 acres were moved to the SWNW of Section 23. The applicant would like to avoid splitting water right 13-7476, so the movement of those 15 acres is demonstrated on a second "page 3" of the transfer application.

A second transfer, filed simultaneously with this one, will further define 13-7476's POU. It will combine 13-7476's POU as rearranged in this transfer with rights 13-2220, 13-7927, and 13-7928.
