Records Specialist II Hersley:

RE: Permit 75-14490

Enclosed is all correspondence we have concerning this *Ownership Change for Water Right*. We have a new notarized document (enclosed original) plus the deed of sale/ownership. Not sure what else we may need or even if getting the prior owner to sign was needed or sufficient.

However, here it all is and I will wait for some direction or a water right notification from you.

Thank you for your direction in this transfer.
