RE: Application for Water Right Transfer No. 79125

Dear Property Owner,

The Department of Water Resources has received an application for transfer regarding water right 11-73. The place of use for the water right was decreed onto a portion of property that you now own. The transfer application seeks to change that place of use, and is enclosed for your review.

The transfer applicant asserts that the water right was removed from your property at an undetermined date. Specifically, the applicant provided a notarized document dated June 4, 2014, signed by William Froerer, asserting that Mr. Froerer gave the right to Frank Eggington. Evidence suggests that William Froerer was the owner of the land as of August 1, 1972. At this time, no evidence can be found that Frank Eggington ever owned the property.

The transfer was advertised according to Section 42-203A, Idaho Code, and no protests were received. In a majority of cases, the transfer would now be considered for approval.

However, because the department was unable to verify the date upon which the right was gifted from Mr. Froerer to Mr. Eggington, we are contacting you to see if you believe the water right should remain appurtenant to your property.

If you assert that you are the proper owner of water right 11-73 (or a portion thereof), please contact me within 14 days of the date of this letter. If I do not hear from you by that time, I will assume that you have no comment, and the transfer will be considered for approval.

Sincerely,

Cooper Fritz
Water Resources Agent

Enclosures: Application for Water Right Transfer No. 79125
