

12/31/14

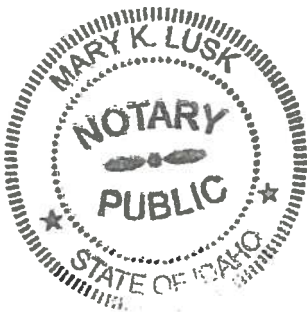

SUBJECT: Transfer 79059 Additional Documentation for Status Conference
1/5/15.

1. Affidavits (6) are substantiating periodic use during time period in question and subsequent use including 2014.
2. Flight record documentation for 2014 aerial photography.
3. 2014 photography identifying current use and farming practice illustrations. Photography includes 10 aerials and 33 ground level photos.
4. Farm Service Agency pertaining to the affected acreage. This indicates the reporting classification as irrigated for grazing and fallow corners pertaining to this transfer. (Note: Circle C Ranch is the farm operations entity of Blaine Larsen Farms).

AFFIDAVIT

9/26/08

I, Jace Rumsey, worked in the Hamer Area referenced in the attached map, during the period 1997 thru 2006. I worked on the farm where the map indicates for Cornelison Farms, and later nearby as a neighbor when working for Silver K Farms. During this period of time, I watched water being applied in these areas with hand lines, in the early or the last of the water season. This did not occur every year but multiple times through this period.

10/15/14

Jace Rumsey
Jace Rumsey
St Anthony, Idaho
Dept of Agriculture

I, Jace Rumsey, drive past this referenced land on a weekly basis. Irrigation has continued during the subsequent years since my initial statement. I have also observed livestock grazing on this land primarily in the fall.

Mary K. Lusk

AFFIDAVIT

10/20/08

I have been employed in the Hamer area for the last 20 years. During this time I have watched water applied to the corners of the attached map. The water was applied very late in the fall or early in the spring. This was not every year for the same corner. It seemed like two or three years apart for some corners.

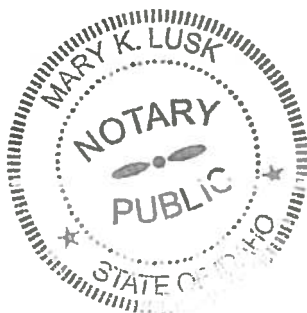

Mary K. Lusk
exp. 1/17/18

RE: Corner Water Applications

To: Who it may Concern,

I, Sue Ann Stoddard, hereby certify the following statement to be true to the best of my knowledge. I currently reside at 2898 East 2300N, Hamer, ID 83425 and have done so since early 2010. My residence is in close proximity to the land referenced in the attached map, identified as owned by BLF Land. I regularly view it on my way to work in Hamer. I have observed these corners indicated using hand lines, normally in the late fall or early spring. I can confirm, without doubt, these irrigations occurred in 2010 and 2014. As a longtime resident of the Hamer area, I remember irrigations prior to that but specific dates I cannot provide. Since 2010 I have observed livestock grazing on this land and have been told this has been a practice for many years.

TO: To Whom It May Concern

SUBJECT: BLF Land Hand line Corner Verification

I, Keith Barzee, hereby witness the following statements to be accurate to the best of my knowledge. I have worked with Blaine Larsen Farms (BLF) as Service Manager for Bonneville Equipment, a local John Deere Dealer, and subsequently as Tractor Manager for all tractor operations for BLF. My association with this referenced land results from initial GPS field mapping and subsequent field operation mapping and verification. During the period 2008, 2010 and 2014, I have observed irrigation via hand lines to the corners outside of the field perimeters. This was normally done in the fall for the most part, at least as I remember. Livestock would also be within the boundaries of the map.

RE: Corner Water Applications

To: Who it may Concern,

I, Misty Neville, hereby certify the following statements to be true to the best of my knowledge. I have resided in the Hamer area for the last 25 years. Our family's farm is contiguous with the east borders of the map referenced land currently owned by BLF Land. During this period of time I have witnessed irrigations of these corners, most recently in 2008, 2010 and 2014. Livestock is often grazing in these fields during the fall and has been since the 1980's as I remember. Previous owners of this land, Cornelison/Olsen Partnership and Golden Eagle Ranch, also irrigated these corners though I cannot specify specific years, only that I remember it was done multiple times.

Misty Neville
Hamer, ID 83425

RE: Corner Water Applications

To: Who it may Concern,

While employed by my former employer, Cornelison Farms, during the period of time 1992 thru 2006, I have observed the following. Water has been applied to the area represented on the attached Map. These water applications normally would occur approximately the last of October and/or the first part of April. The irrigation purpose being germination for Crested Wheat Grass or Cereal Rye grown for internal use.

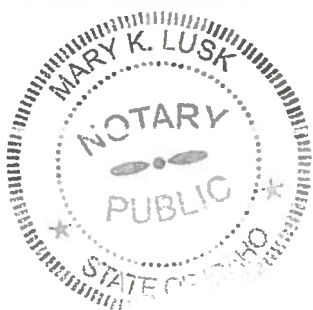

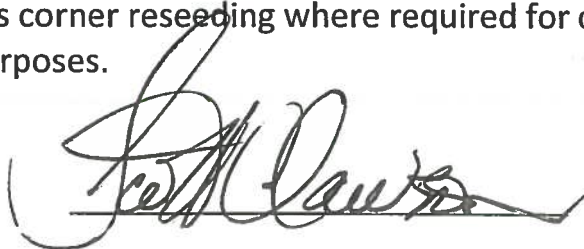

During my Employment with Larsen Farms I have also observed this water application continuing.

Scott Clawson
Rexburg, Idaho
Larsen Farms
Farm Operations

9/26/14

I hereby certify this practice has continued as described above including 2008, 2010, and 2014. 2014 includes corner reseeding where required for continued successful livestock grazing purposes.
