

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 37-22902

Priority: October 10, 2014

Maximum Diversion Rate: 0.04 CFS

This is to certify, that EVAN GLADE WOOD
821 9TH AVE E
GOODING ID 83330

And/Or

MISTY ANN WOOD
821 9TH AVE E
GOODING ID 83330

has applied for a permit to appropriate water from:

Source: SPRING**Tributary:** SNAKE RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SPRING SE1/4NW1/4SE1/4 Sec. 21, Twp 06S, Rge 13E, B.M.
GOODING County

PLACE OF USE: DOMESTIC

Twp	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
06S	13E	21																	

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **March 01, 2020**.
2. Subject to all prior water rights.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
4. Domestic use is for 1 home and does not include lawn, garden, landscape, or other types of irrigation.
5. The domestic use authorized under this right shall not exceed 13,000 gallons per day.
6. This right does not grant any right-of-way or easement across the land of another.

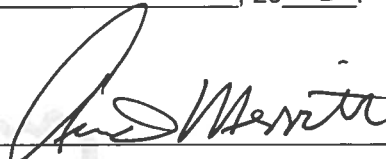

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 37-22902

7. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
8. The following rights for domestic purposes are also diverted through the point of diversion described above: 37-11160, 37-10996, 37-4322A, 37-4322B, and 37-4020.
9. This right and domestic rights 37-11160, 37-10996, 37-4322A, 37-4322B, and 37-4020, using the same diversion system, are limited to a total combined diversion rate of 0.20 cfs.
10. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review 5 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
11. Source is also known as Montana Mining Company Ditch Spring No. 3 or Upper Decker Spring.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 4th day of March, 2015.

RE: Permit No. 37-22902

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-736-3033.

Sincerely,

A handwritten signature in black ink, appearing to read "Allen Merritt". The signature is written in a cursive style with a large initial "A" and "M".

Allen Merritt
Southern Region Manager

CERTIFICATE OF SERVICE

I hereby certify that on March 5, 2015 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

37-22902

**EVAN GLADE WOOD
MISTY ANN WOOD
821 9TH AVE E
GOODING ID 83330**

A handwritten signature in black ink, reading "Denise Maline", is written over a horizontal line.

**Denise Maline
Administrative Assistant**

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit to Divert Water 37-22902

Dear Mr. and Mrs. Wood:

This letter is in regards to your recent Application for Permit to Divert Water, 37-22902, for domestic use from Upper Decker Springs in the Hagerman Valley. In discussions and correspondence you have had with the Watermaster of Water District 130, Cindy Yenter, you probably are aware by now that the Upper Decker Spring complex is fully appropriated at this time. Due to this fact, it is possible that your new permit may infringe upon the ability of senior water right holders in the Upper Decker Springs complex to receive the full appropriation of their water rights.

In order to continue processing your application, IDWR requires that you contact each water right holder in the main pipeline at Upper Decker Springs, and have them supply, and deliver to our office, a written statement of their approval of your application for permit. Please supply the requested statements within 30 days of the receipt of this letter. The water right numbers, water right holder's names, and most recent addresses in our database are on the enclosed page.

Also, please keep in mind that even if your application is approved, you will not be authorized to irrigate any lawn or landscaping with the permit, so you will need to find an alternate source for that purpose, as Ms. Yenter also informed you.

If you have any questions, feel free to contact our office. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Bitzenburg', is written over a horizontal line.

RECOMMENDATION OF WATERMASTER

Application No: 37-22902
Water Right No:
Applicant Name: Wood

Watermaster's Recommendation:

a) ☐ I do not oppose approval of this application

b) ☒ I do not oppose approval of this application under the following terms:

WB5 Domestic use is for 1 home and does not include lawn, garden, landscape, or other types of irrigation.

The following rights for domestic purposes are also diverted from the same pod: 37-11160, 37-10996, 37-4322A, 37-4322B, 37-4020.

This right and other domestic rights using the same diversion system are limited to a total combined diversion rate of 0.20 cfs.

c) ☐ I oppose approval of this application(s) for the following reasons:

d) ☒ Additional comment:

Source is known locally as Montana Mining Spring #3, or Upper Decker Spring. The Upper Decker complex is fully appropriated and actively regulated. This proposed diversion is established, and has a measuring device and controlling works installed. The existing diversion serves 5 homes which divert year-round, plus 4 irrigation rights. There are 4 other domestic and/or irrigation rights also using the waters of Upper Decker, but through separate water lines.

A second spring, Lower Decker, is also part of the complex and there is an irrigation right which diverts at that spring. A fish propagation facility and power plant are situated in the lower part of the drainage. The existing irrigation and domestic rights are all senior to the fish propagation right, which usually does not receive its full right even during non-irrigation season.

Consequently this permit as a new junior right in the Decker springs complex is not technically deliverable much of the year and could be denied based on insufficiency of water supply.

One solution would be to mitigate the new diversion by reducing use under another right in the system. However, if the new use is limited to in-house use only (de minimus consumptive) and total diversion rate is not increased, development of the permit should not adversely impact senior rights.

over

d) X Additional comment (continued):

Irrigation must be absolutely excluded from this permit. Any new consumptive use, however small, would create injury to seniors and may not be allowed. In order to get irrigation authorized around the home, Mr. Wood will have to acquire an irrigation right from somewhere in the Decker springs system. Fortunately this should be quite easy as there are a number of rights with active irrigation which have been decreed from this source, and which would be deliverable at the Upper Decker headgate.
