Re: Application for Extension of Time Water Right Nos. 22-7347 and 22-13210

Dear Mr. Buyer,

Enclosed are two Applications for Extension of Time to Avoid Forfeiture for water rights within Teton Reserve PUD near Driggs, Idaho. The requests for Extension of Time are justifiable for several reasons, the most relevant are as follows: (1) The downturn in the economy hit the Teton Valley as hard as any other area of Idaho. Therefore, these economic challenges substantially delayed development within the Teton Reserve PUD, leaving many of the open spaces and undeveloped lots un-irrigated since about 2009. (2) Although the original water right holders to the above described water rights fully intended to reserve the water rights for the use and benefit of the entire Reserve and its members, as described below, when lots were actually sold, the deeds did not contain the reservation language. (3) The owners of the several lots which were purchased did not and do not fully appreciate the fact that there is an issue with water rights reserved or not reserved upon each of their lots. Furthermore, the lot owners are NOT fully using the water on their individual lots and therefore, they are unaware that the rights may be lost for non-use if the above water rights are not granted an extension of time in which to fully develop their rights.

The water rights have not be updated to the present owners and therefore are presently shown on IDWR's records as vested in Teton Valley Golf Association. It is appropriate that TR Golf LLC, the immediate successor in interest of Teton Valley Golf Association (see attached executed quitclaim deed from Teton Valley Golf Association to TR Golf LLC), be allowed to file Applications for Extension of Time for the entire water rights described above in order to allow the present owners of the individual lots and the balance of the present owners of Teton Reserve PUD to fully develop the water rights and resolve issues they might have among themselves as to any share of the above water rights which may have passed with the lots sold.

It should be noted that the two golf courses and minor landscaping along the entrance to the PUD have continued to be irrigated from the beginning of the development of the PUD, and thus forfeiture is not an issue on these acres. Nevertheless, because the above water rights have not been divided as among the various uses and lots due to the PUD having not been fully developed, it is appropriate that the entire water rights be included in the Applications for Extension of Time.

As described above, in the initial stages of developing Teton Reserve PUD, the original developers intended to reserve the irrigation water rights for use on all open spaces and the golf courses. The plat map and covenants clearly attest to this intention. However, the water rights were not properly reserved on the deeds for lots which have been sold, denying the current owner, TR Golf LLC, the automatic authority to update and preserve the water rights on behalf of the entire PUD and lot owners. However, in its fiduciary capacity, TR Golf LLC is in the process of clarifying the ownership of the water rights to obtain the authority to file necessary paperwork and develop the water rights. Therefore, in its fiduciary capacity, TR Golf LLC should be allowed to file the Request for Extension of Time to preserve the water rights during the interim. Upon resolution of the water rights issues, ownership records will be updated to reflect the settled water right owners.

It is clearly in the best interest of all who have invested in lands within the PUD that these water rights be preserved through an Extension of Time. We are also enclosing a copy of a quitclaim deed executed by Teton Valley Golf Association LP to TR Golf LLC to insure that any remaining interest that Teton Valley Golf Association might have had will be transferred to TR Golf.

Please include Rocky Mountain Environmental and Jerry R. Rigby of Rigby, Andrus & Rigby Law, PLLC, in all correspondence.

Thank you,

Kristin Moore

Conditions of Approval:

1. 26A

Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
3. X01 Domestic use is for 384 homes.
4. 070 The irrigation occurring under this domestic use shall not exceed 1/2 acre within each platted subdivision lot upon which a home has been constructed. This right does not provide for irrigation of common areas or for irrigation of lots upon which homes have not been constructed.
5. 071 The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
6. 077 Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
7. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
