Subject: FW: Extension of time to avoid forfeiture

Sandra,

Based on James' comment, an extension of time is appropriate.

Subject: RE: Extension of time to avoid forfeiture

I am not opposed to an extension of time to avoid forfeiture. I'm happy to see a water user actively protecting their water right from forfeiture issues.

James, Michael and or Blake,

Do you have a recommendation for Sandra Thiel on this application for extension of time?

Subject: Extension of time to avoid forfeiture

Good morning, We received an application for an extension of time to avoid forfeiture for rights 22-13210 and 22-7347. I'm new to the process. In the past it appears that the regions have reviewed these applications. Since I am currently reviewing them, I would appreciate any input that you might have. The attached documents are a map of the place of use and my memo.

Hello Kristin, It sounds like we can proceed with this because we have the copies of the quit claim deeds showing that they have an interest in the rights. Thanks

Sandra,

The reason a change of ownership hasn't been submitted is due to the ownership complications for changes since the client purchased the property. Portions of the property have been sold without a water right reservation on the deeds, and our client is currently working on clearing up the water right ownership issue. They wanted to wait to file the change of ownership until everything was sorted out and they have clear title to the full water rights. Can you proceed without it?

Hello, I am reviewing the application for the extension of time to avoid forfeiture for these two rights. We received the quit claim deed for the land along with the application. Could you have your clients also submit a change of water right ownership for these two rights? Thanks
