

MEMORANDUM

Date: February 18, 2015
To: Water Right File 13-7561
From: sbergendorf
Re: Field Report Follow Up

Water Right Permit 13-7561 requires the permit holder to comply with IDFG fish screening requirements. A letter from IDFG states that the system must be screened to prevent raceway fish from entering the creek. The field exam completed in 2001 failed to show that fish screening requirements had been met. A follow up with the owner who provided a picture of the screen shows that fish screen requirements have been met.
