G. NARRATIVE/REMARKS/COMMENTS:

It wasn't clear with aerial photography what acres were being irrigated. Mr. Farchiseur sent me a map marking the POU. From the areas he marked, it appears that only 1.5 acres are being irrigated. And part of the POU is in T59NR05W Sec 16 SESW also. An amendment is needed to reduce the number of acres and add the additional POU. The applicant also sent pictures of his diversion system and fish screen.

RE: Water Right Permit No. 97-7485

Dear Permit Holder:

The Idaho Department of Water Resources (Department) is in the process of reviewing your water right permit for licensing. Water right permit 97-7485 qualifies for in-house review. In order to speed this process along, the Department needs to know which lands you are irrigating. I have attached a map of your property. Will you mark the location of the garden and the lands you are irrigating?

Also, the Department needs pictures of your fish screen and diversion system along with an explanation of how the water is reaching the irrigated lands.

Please respond within 15 days so the Department may continue the review process. If you have any questions, please contact me at (208) 287-4942. Thank you.

Sincerely,

Jean Hersley
