Actions taken and expenses incurred towards the development of water right 61-7619 consist of upgrades to existing equipment and the addition of new equipment and infrastructure including:

1. Rebuild one, and the acquisition and installation of two additional high speed, high capacity stainless steel pumps to increase both pressure and volume of product delivery.
2. Installation of underground piping to ends of existing structure for attachment of new wash bays.
3. Re-pipe of existing facility to accommodate increased water demand.
4. A complete water well maintenance audit including: new pump, 1 ½" sch. 40 galvanized pipes, check valve and pump end.
5. Computer hardware and software system for credit card processing at point of sales, with anticipated 40% increase of sales and water demand.
