None. This Water Right does not require any development.

Costing \$

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The purpose of the Water Right is to draw water from the requested location with a pump mounted on a 3,000-5,000 gallon water truck. The water will be used for road development projects and/or dust abatement on graveled and/or native surface forested roads.
