To: Transfer 79744
From: Stephen Bosworth
Re: Review & Evaluation of Sufficiency of Information

This transfer was filed in response to a notice of violation issued in December 2014 relating to unauthorized irrigation. The transfer rearranges 5-acres in the place of use of water right 34-7172, moving them from NENW T03N R27E S06, to the SENW of the same section.

Authority to File: Marc Hansen has the authority to file. Marc Hansen and Teena Hansen are the owners of the water right according to department records. The applicants also own the place of use per Butte County tax assessor data. Teena Hansen has reviewed the application for the water right transfer and has given approval to move forward. Attached is verification of both owners approval via email.

Water Right Validity: Water Right is valid. It was decreed on 12/14/2001. Review of post decree aerial photography indicates consistent irrigation.

Injury to Other Water Rights: No injury will result from this transfers approval. The POD is not changing. The watermaster was notified and did not oppose approval of the application.

Enlargement of Use: No enlargement of use will result from this transfers approval. Rate, irrigated acres, nor volume are authorized to increase as a result of this transfer.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
1/8/2015

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.
