ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 15-07176 with the following:

CONDITIONS OF APPROVAL

1. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
3. The diversion and use of water described in Water Right **15-7176** may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.

Witness my hand this 3rd day of February, 2015.

RE: Water Right Permit No. 15-7176

Dear Mr. Willie,

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

During the review it was found that the point of diversion was developed differently than described on the permit. Specifically, the point of diversion was developed in Lot 5 (SWNW) of T15S, R36E, Section 6, as opposed to the NESW of the same Section as authorized on the permit.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

An Application for Amendment and a map illustrating the place of use and point of diversion are enclosed. The Application for Amendment details the elements of your water right as they were developed, and is based on the enclosed map. Please review these documents carefully. If you concur with the information presented, please sign the Application for

Amendment and return it with the \$100 filing fee within 30 days.

If you have any questions, please do not hesitate to call me at (208) 525-7161.

Sincerely,

Cooper Fritz

Water Resources Agent
