

MEMORANDUM

TO: Water Right File Nos.25-14378, 14387, 14388, 35-14139 & 35-14283

FROM: Darla Block

DATE: January 12, 2015

SUBJECT: Original Proof Statements

This is why there are copies in the files instead of originals:

On November 25, 2014, the department mailed a proof acknowledgment letter to the permit holder of record (Idaho Falls School District #91) with a cc to Rocky Mountain Environmental.

I later discovered that I did not have the original proof statements with the files, but had copies. On December 09, 2014, I emailed the permit holder thinking that I had inadvertently sent the originals to them, and requested that the originals be returned to the department. I attached a set of copies as a pdf file for their records.

On December 15, 2014, I received my original proof acknowledgment letter along with copies of the proof statements from the permit holder. I then resent the entire packet back to the permit holder since I already had copies.

On January 12, 2015, I phoned Keith Wilson of Rocky Mountain Environmental to find out if I inadvertently sent the original proof statements to him instead. Keith informed me that what he had were black & white copies also.
