Re: Permit 95-11088

It has been brought to the Honeysuckle Cooperative Water Association's attention that according to Section 42-204 of the Idaho Code we can request an extension of up to 5 years to complete our Proof of Beneficial Use application. Please amend our Request for Extension of Time form from 3 years to 5 years. We understand this is the last extension request allowed.

Thank you for your assistance in this matter! Please let us know if there is anything else we need to provide.

Respectfully,

A handwritten signature in black ink, appearing to read "Toni Brown", followed by a long horizontal line extending to the right.

Toni Brown, Secretary  
Honeysuckle Cooperative Water Association

**Subject:** Request for Extension of Time Received for Permit 95-11088

January 28, 2014

Dear permit holders:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. On this extension you have asked for 3 years.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have already had the initial 5 years allowed under the permit. This extension is considered to be your last extension request allowed under due diligence or good cause, and you could ask for up to 5 years on this extension request.

However, in order for me to modify your request for extension of time form from a 3 year extension to a 5 year extension, I need written request from you stating that you would like to have your extension request form modified to reflect a 5 year extension in lieu of the 3 years currently stated on the form. A reply to this email could be used as your written request to modify your form. Please respond as soon as possible, and be as specific as you can in your request.

Once I receive your reply, I will be able to move forward with processing your request right away.

Sincerely,
