1. The water rights referenced above will be rented from the bank at the current rental rate.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. While the Lower Embankment Drain is a natural water way, it is also a federal facility and has been utilized as part of the Boise Project since 1908 as invoked by the United States through its reservation authority provided by the Act of August 30, 1890 (43 U.S.C. 945). As a federal facility, the Lower Embankment Drain, to the extent allowed by law, may be rerouted, piped or its flow of water interrupted if determined appropriate to better serve Boise Project purposes.
13. Right No. 63-4256E, 63-31633 and 63-31634 are also diverted through the point of diversion described above.
14. The source of this water right includes waste water. The right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.
15. Rental of this right is limited to direct diversion from the Lower Embankment Drain.

MEMORANDUM

To: Water Right No(s). 63-4256C

From: Jean Hersley

Date: 1/15/2015

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: This is an extension of a prior lease. As stated in Sandy Heminway's memo dated June 13, 2013, the applicant stated her pump is no longer shared with other users, that they had installed their own pump right next to the location of her pump. Her pump needs work and she does not have the funds to fix it.

As per phone call with Priscilla Armenta on 1/12/15, I am advancing the end date to 2019.

AUTHORITY TO FILE: The application was signed by an authorized agent of the Design company.

WATER RIGHT VALIDITY: The water right was decreed in 2010. It was lease to the Bank for the 2014 irrigation season.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 63.
