Subject: Request for Extension of Time Received for Permit 65-23466

December 18, 2014

Dear Mr. Danhaki:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. I noticed that you have asked for 3 years on this extension request.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years.

You were given a 1 year development period under the permit, and a 2 year extension of time after that. If you were to change your extension request from a 3 year extension to a 2 year extension request, you would be meeting the initial 5 year development period allowed. This would give you the opportunity to file one more extension request for up to 5 more years later as mentioned above.

However, in order for me to modify your request for extension of time from a 3 year extension request to a 2 year extension request, I need written request from you stating that you would like to have your extension request form modified to reflect a 2 year extension in lieu of the 3 years currently requested on the form.

A reply to this email could be used as your written request to modify your form. Please respond as soon as possible, **and be as specific as you can in your request.**

Sincerely,
