RE: Ownership Change for Right 63-32479 and New Application for Permit

Dear Mr. Farrell:

We recently received an application for permit for domestic and irrigation purposes from a well located on your property. Past correspondence from Kay Walker of this office indicated the legal descriptions of some domestic water rights that appear to be appurtenant to your property were decreed in error recommended that you simply file a new application for permit for the irrigation use.

In the meantime, I have located a domestic right decreed to the previous owner of your property which already has the CORRECT legal description for the point of diversion and place of use. I have enclosed a proof report of that right along with a Notice of Change in Water Right Ownership which I have partially filled out for you. I have attached a map to the form so you don't need to deal with that. The items you need to address are highlighted in pink. Once we receive the signed form along with the filing fee and copy of warranty deed, we can change the ownership of that right to you.

A domestic right from ground water includes up to ½ acre of irrigation and watering of household stock. So if you do not plan to irrigate more than ½ acre, you can request the withdrawal of the application and a refund of the filing fee. A **withdrawal form** has been partially prepared for your use (simply date and sign where indicated).

However, if you do plan to irrigate the entire 3.7 acres shown on the application you submitted in October, I ask that you sign the **Amended Application for Permit** that I have prepared and enclosed. It contains the correct legal description of the well and identifies irrigation as the only new use to be appropriated since the home and mixed stock are sufficiently covered by Right 63-32479. The only thing we need is your signature on the second page where indicated.

If you have any questions concerning the enclosed documents or this letter, please do not hesitate to call me.

Sincerely,

SHARLA CURTIS
Sr. Water Resource Agent

Re: Water Rights

Dear Ms. Farrell:

Following our telephone conversation this morning, I searched and found a copy of the letter I sent to you on August 5th. I was able to print a new map of your property that you can use to file a new application for permit. I have also "drafted" an application form that you can use as an example to complete the application you intend to file. There is a blank application for permit form in the packet I have sent for your use. Please complete the application form and submit it with the filing fee. The filing fee for this application form is \$100.00. The fee is used to advertise the application in the Canyon County paper for two consecutive weeks, one day each week. After the second advertisement we will hold the application for 10 days and if no one protests the application it will be routed for final action. Once a permit is issued, you will be able to hire a well driller to drill the well.

I hope this information helps. If you have any questions regarding this matter, please feel free to contact our office.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Re: Water Rights for Shared Well Nos. 63-26326, 63-26327 & 63-²⁶³²⁸~~32628~~

Dear Ms. Farrell:

As we discussed last Friday, I am enclosing copies of the water rights I found that appear to be appurtenant to the well that you called about. I have included proof reports of each of the water rights along with a copy of the Adjudication claim that was filed for each of them. It appears to me that the legal descriptions on each of these rights was claimed and decreed in error. If I have correctly located the place of use of each of these water rights, the place of use should be located within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 3N, Rge. 3W, rather than the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 3N, Rge. 3W. The only way to correct these errors now is by filing an application for transfer of water right to change the point of diversion and place of use to the correct location. I have also included a map that I have pointed to the location of the lots that have the addresses as shown on the claims. I have also enclosed the Notice of Change in Ownership form that you requested.

I hope this information helps. If you have any questions regarding this matter, please feel free to contact our office.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
