MEMORANDUM

To: Water Right No. 63-3569

From: Ashley Newbry, Engineer Associate

Date: 1/13/2015

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: On November 12, 2014 the Department received a 5-year renewal WSB application from Clark R. Magstadt for water right 63-3569. This 1966 priority industrial use water right has a season of use spanning the whole year (01/01 to 12/31) with a diversion rate of 0.54 CFS and an annual diversion volume of 394.0 AF.

This water right POU and POD fall within the "Basin 63 Groundwater Restricted Area." This is an area in which ground water shallower than 200 feet below ground surface is likely tributary to the Boise River upstream from Star Bridge. Application Processing Memorandum No. 59 directs IDWR to hold new water right applications for consumptive use of ground water in this area, without further processing unless one or more of the special conditions apply (no injury to other WR's; domestic purposes; multiple ownership subdivision/mobile home park; ground water deeper than 200 feet).

This water right POU and POD fall within the "Ground Water Management/Moratorium Area Boise Front." New low temperature geothermal water (85 - 212 degrees) uses are prohibited. Wells with a depth of 300 feet or more must be monitored.

A drilling log search revealed 3 monitoring wells on site. All wells are less than 100 feet deep (approximately 25 feet); water temperatures are less than 85 degrees.

AUTHORITY TO FILE: Water right 63-3569 is in the name of Clark R. Magstadt. Therefore, he has authority to file.

WATER RIGHT VALIDITY: The water right was decreed in 2009. The water right has been in the WSB for the past 5 years; this is a renewal application for an additional 5 years.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right is not subject to a water district.

No Western Region comments as of 1/13/2015.
