Subject: RE: Sun Valley Company Transfer Application

Greetings Doug,

This is a short email to confirm that we had a brief telephone conversation this morning regarding the pending Sun Valley Company water right transfer application involving water rights 37-415 and 37-416. I confirmed with you that you received the map depicting the intended irrigation acres for 2015 from Erick Powell of Brockway Engineering. This information satisfied your outstanding requests for additional information regarding the application.

I asked you to notify me if you require additional information to finalize approval of the transfer application. You confirmed that you would do so.
The Sun Valley Company is hopeful that the Department will complete its review of the application and issue an approval order before the close of 2014.
Your efforts to accomplish that goal will be appreciated.

Thank you for your time and cooperation. Also, please confirm that this email accurately describes the salient points of our conversation.

Scott
