AFFIDAVIT FOR WATER RIGHTS TO BE USED FOR POWER PURPOSES

A. Establishment of Residency or Qualification to do Business in Idaho (complete either 1 or 2)

1. Individual Applicant:

I, Mary D. White Ostrander of Meridian
(name) (city)
County of Ada, State of Idaho, being duly sworn, do hereby certify that I am a
bona fide resident of the State of Idaho.

2. Corporation or Partnership (complete part 2a or 2b):

a) ☐ Attached is a *Certificate of Existence* or a *Certificate of Authorization* or other documentation issued by the
Idaho Secretary of State confirming 12/1/14 M/A's authority to transact
(name of corporation or partnership)
business in Idaho.

or
b) I, Tony White of Buhl, County
(name) (city)
of Twin Falls State of Idaho, being duly sworn, depose
and say, that I am the _____ for _____;
(title) (name of corporation or partnership)
that as such I have legal authority to sign this affidavit on behalf of _____
(name of corporation or partnership)
and that _____ is a corporation or partnership qualified to do business in
(name of corporation or partnership)
the State of Idaho under the laws of the State of Idaho.

B. Ownership of Facilities

The hydropower facility to be developed pursuant to the attached Application for Permit (check one):

- ☐ Will not utilize existing man-made irrigation facilities such as a dam or a canal.
☒ Will utilize existing man-made irrigation facilities such as a dam or a canal, and permission of the owner is documented in an affidavit attached hereto.
☐ Will utilize existing man-made irrigation facilities such as a dam or a canal, and the owner is the signee of this affidavit.

To appropriate the public waters of the State of Idaho

WATER RESOURCES
WESTERN REGION

1. Name of applicant(s) Mary D. White-Ostrander/Terry G. White Phone 208-861-0894
Name connector (check one): ☐ and ☐ or ☒ and/or

Mailing address 7637 S. McIntock Place City Meridian
State Id Zip 83642 Email _____

2. Source of water supply Mud Creek which is a tributary of Snake River
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
09S	14E	28		NE	NW		Twin Falls	Mud Creek	

4. Water will be used for the following purposes:

Amount 25 for Power purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount 250 for 250 purposes from 1/1/2014 to 1/1/2015 (both dates inclusive)
(cfs or acre-feet per year)
Amount N/A for N/A purposes from 1/1/14 to 1/1/25 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 25 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Same system to be used as Water Right License #47-07726 Dam - To Penstock - To Generation

b. Height of storage dam 8 feet; active reservoir capacity N/A acre-feet; total reservoir capacity _____

Constant Flowing If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for

Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No

c. Proposed well diameter is N/A inches; proposed depth of well is N/A feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No

e. If well is already drilled, when? N/A; drilling firm N/A; well was drilled for (well owner) N/A; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. 65 feet of head 284 kW

b. Stockwatering; list number and kind of livestock. CWSA - LIMITED

c. Municipal; complete and attach the _____

d. Domestic; show number of households N/A

e. Other; describe fully. N/A

8. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below.
See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
09S	14E	28		P															

Total number of acres to be irrigated: 50

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?
Water Right License # 47-07726 (for power).

10. a. Who owns the property at the point of diversion? Terry G. White
b. Who owns the land to be irrigated or place of use? Terry G. White/Mary D. White-Ostrander
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:
N/A

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Requesting a permit for an additional 25 cfs for existing power generation. Water is to be used when not in use for irrigation. — Hydro Power which we have been producing for the last 30 years

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8 1/2" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred. N/A

30 - 125 040
The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

GUIDELINE FOR SUBMITTING ADDITIONAL INFORMATION

This outline is intended to assist you with providing the additional information required under Rule 40 of the Department of Water Resources and Idaho Code, Section 42-203A(5)(a) which may help answer questions as to the type of information you should submit. The outline below follows the same order as the attached rules. Please take the time to review the outline. Much of the information requested under Rule 40 may already be available to you. Gathering the necessary information may be of benefit to you in planning the proposed development.

Rule 040.05.c and Idaho Code, Section 42-203A(5)(a) Information relative to effects on existing rights:

- ✓ i. If diverting from a surface water source with 5 or fewer existing users, submit the water right numbers held by those users if available. *Here this*

If not available, submit the names and addresses of those users and describe the location of their diversions and types of use associated with those diversions.

- ii. ~~If you are diverting from a groundwater source, submit a map locating your proposed well and all other wells within a 1/2 mile radius of your well. It would be helpful to describe the use from those wells (i.e., domestic, irrigation etc.). You are not required to submit a map if there are no wells within the 1/2 mile radius, but you should indicate if there are no existing wells within that radius, if that indeed is the case.~~

- ✓ iii. This rule seeks general information about the type of irrigation system you intend to install and how the project may affect other users. If you feel your proposed project will not affect other users, then explain why. You may describe any techniques or equipment you intend to employ which may reduce impacts on other water rights or promote water conservation.

Have the form - Working from Mud Creek Water users
Rule 040.05.d and Idaho Code, Section 42-203A(5)(b) Information relative to sufficiency of water supply:

- ✓ i. Provide projections for your peak and average water demands. While your well or diversion may not yet be completed, you should be able to estimate project demand based on size of project (or number of acres irrigated), type or texture of local soils, type of crops grown, and type of irrigation system used. Demand projections should be given in terms of flow rate (cfs or gpm) and annual volume diverted (acre-feet).

Example: A 40 acre tract with 6 handlines and 20 heads/line discharging 3 gpm/head would produce a total flow rate of about 360 gpm or 0.8 cfs (1 in/acre). This flow rate multiplied by average number of hours per set, sets per irrigation and irrigations per year provides number of acre-feet per year or annual volume.

- done* ii. You should be able to provide some basic information about the nature of the water supply. If the diversion is from a surface water source for example, you should provide stream flow data or estimate the amount of stream flow available for diversion and describe generally the seasonal availability of water. If you are diverting from a groundwater source, you should be able to generally describe the aquifer which you plan to divert from, i.e.; deep confined or shallow unconfined aquifer, depth to water level or depth to aquifer, known yields from wells within the same aquifer etc.

Rule 040.05.e and Idaho Code, Section 42-203A(5)(c) Information relative to good faith, delay, or speculative purposes of the applicant:

- i. If you do not own the land to be irrigated and/or where the point of diversion is located, you must submit copies of lease agreements, easements or rights-of-way etc. If you are the owner of the place of use and point of diversion, documentation of ownership is not required.

- ii. If applicable, submit copies of applications for permits or approvals which are needed from other government agencies or individuals in order to complete the water development project.

Rule 040.05.f and Idaho Code, Section 43-203A(5)(d) Information relative to financial resources:

- i and ii. Submit a current financial statement or other statement describing how you will finance the project. You must also submit plans and specifications along with basic estimates of construction and equipment costs of the proposed project.

Not adding anything - Const Costs paid by Harrison
Rule 040.05.g and Idaho Code, Section 42-203A(5)(e) Information relative to conflict with the local public interest:

- i. You, as the applicant, bear the initial burden of coming forward with evidence as to whether your proposed project may have any affect concerning local public interest. If you have any reason to believe that the proposed project under your application may be of concern to any local individuals, governments, tribal reservations, irrigation districts, the State Fish and Game Department, or Health and Welfare Department, then you are responsible for seeking comments from those individuals or groups. This requirement is mandatory for projects located within irrigation districts, canal companies or tribal reservations (failure to obtain comments from the irrigation district, canal company or reservation will delay approval of the application.). All comments must be submitted to the Department of Water Resources.
