RE: Ownership of Water Right 98-4075 (split into 98-4075 and 98-7942)

Dear Water Right Holder:

We have received and processed a modification to a Change of Ownership for a portion of your original water right as referenced above. This modification to a Change of Ownership resulted in a change to a split off your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is issued to the new owner representing their portion of the original water right. Each water right contains only the portion of the original right for each separate owner. The original water right number reflects your remaining portion of the water right, after the change of ownership. Enclosed is a copy of this water right for your records. Please refer to your water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning this ownership change, or the enclosed information, please contact me at 208-287-4800.

Sincerely,

Ashley Newbry
Engineer Associate
