PROOF DEFICIENCY LETTER

RE: Permit No. 65-22931

Dear Interested Parties:

The Department received your Statement of Completion for submitting proof of beneficial use ("proof") from you on September 25, 2014 for the above referenced water right permit.

This water right is in the permit stage. A water right in the permit stage is considered to be personal property of the permit holder of record with the Department, and this permit is currently in the names of Michael and Cynthia Kelley. An "Assignment of Permit" form is required from Michael and Cynthia Kelley to make the change in ownership of this permit. The assignment of permit form must be filled out and signed by both of the Kelley's and show both of the new owners of the property. Enclosed for your use is an Assignment of Permit form.

The Department cannot accept the proof form you filed because of incomplete or missing information. Item no. 7 of your proof form is incomplete. I am returning the original form to you and ask that you complete item no. 7 of the form and return it to my attention.

You might also want to modify item no. 5 of your proof form as this permit only allows water to be used from surface water for irrigation of 6 acres. To provide you with information regarding the permitted water uses, enclosed is a copy of this permit for your reference.

If you have any questions, or if you are unable to locate the current owners of this permit in order to get an Assignment of Permit form filled out, please contact me at 208-287-4945.

Sincerely,

Darla Block
