Re: Transfer Evaluation

Transfer No. 79697 for water right 34-14384 proposes to correct the point of diversion of the right.

Authority to file:

The existing place of use, new point of diversion and the water right are in the name of Joseph and Teresa Landon.

Validity of the Water Right:

Water right 34-14384 was decreed on December 14, 2001. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. No ESPA analysis was conducted because the existing point of diversion and the new point of diversion are located within the same model cell. The application was advertised, no protests were received. The water master for WD34 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
