All water rights leased into the Water Supply Bank shall remain unused by the water right holder for the duration of the Lease Contract. The water right will not be released from the Water Supply Bank until the conclusion of the Lease Contract unless otherwise authorized by the Idaho Water Resource Board. Water right holders may use this form to petition for early termination of their Water Supply Bank Lease Contract.

Water right holders seeking an early termination of a Lease Contract must demonstrate justifiable need for the release. Water rights under Lease Contract that are eligible for early termination can be released from the Water Supply Bank if the release will not impair administration of the Water Supply Bank. **If a water right is currently rented, it cannot be considered for release until the Rental Agreement concludes.** A water right is not released from the Water Supply Bank until written release confirmation is issued by the Water Supply Bank.

MEMORANDUM

To: Water Right File 61-12264 and 61-12266

From: Sandra Thiel

Subject: Water Supply Bank Lease

Date: January 5, 2015

On Friday, January 2, 2015, Ray Monteirh came by the office with forms requesting to release water rights 61-12264 and 61-12266 from the water supply bank. There is no record of a lease in the files for either of these two water rights. In 2011 water right owners Peter Nielsen and William Van Handel filed a transfer. The original water right numbers were 61-12229 (split to become 61-12266 and 61-12267) and 61-12231 (61-12264 and 61-12265). In the documentation for the two parent rights there is a letter dated February 16, 2011 to Peter Nielsen. According to this letter parent rights 61-12229 and 61-12231 have been leased into the bank, in their entirety, since September 22, 2005.

Rights 61-12265 and 61-12265 currently belong to William Van Handel and Peter Nielsen. They are commercial rights. These water rights are not leased into the bank.
