Mr. Arkoosh, Mr. Faulkner,

I hope that you are enjoying the holiday seasons. And I hope that by now you have received license 37-7891/1-7086, which is for power use at the Faulkner Brothers Hydro.

The license was based on a field examination that was conducted in 1993. I reviewed the field examiner's report and supplemental data provided by you, the Idaho Public Utilities Commission and the turbine manufacturer. Both the field examiner and I found that you have exceeded the rate authorized under 37-7891/1-7086

The Department has conducted a search and was unable to find other water rights that authorized the additional diversion rate. Therefore, you will need to either reduce your diversion rate to the authorized amount or file an application for permit for the additional rate not authorized under 37-7891/1-7086 or other water rights. For your convenience, I have attached an Application for Permit form and the instructions for completing it, to this email. A formal letter will follow via traditional mail.

If you have any questions, please contact me at 208-287-4946.

Sincerely,
Michele Edl
