Re: Smokey Dome LLC Water Right Permit 37-8859

Dear Mr. Merritt:

SV Ranch recognizes the need to install two measurement devices before the beneficial use exam can be performed on Permit 37-8859. There are multiple water rights in the area that are owned by Smokey Dome LLC that will be required to have flow measurements installed within the next year or two.

Smokey Dome LLC would like to be able to install all the measurement devices in the area at the same time and maximizing the time and equipment necessary to install the devices.

It is requested that an additional 3 years be given to complete the work for this permit.

Sincerely,

Greg Sullivan, M.S.
