RE: Conversation with WR Applicant April 8, 2013

I spoke with Adrian, husband of applicant Mata Lind, today regarding the above referenced application. He stated his wife (Mata Lind) spoke with the protestant Linda Baker regarding her protest, no common ground/agreement was reached regarding the application at that time. Adrian stated he would like to discuss the application one more time with Linda Baker to see if common ground can be reached. If not, Adrian said he would contact IDWR to proceed with scheduling of a pre-hearing conference. Adrian indicated he must travel to England during the month of June to attend a memorial service for his father, and that during that time they would not be available to attend a conference. I told Adrian schedules will be sent out to the applicant and protestant to hopefully agree upon a common date and time both parties can attend the conference, should it be necessary.
