LYNN H CAMPION, PO BOX 3710, HAILEY, ID 83333; has filed Application No. 79235 for changes to the following water rights within BLAINE County(s): Right No(s). 37-577CA, 37-659A, 37-7017, 37-8485. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes adding two new wells as points of diversion (POD) to a 0.243 cfs portion of Big Wood River irrigation right 37-577CA; 0.505 cfs portion of Big Wood River irrigation right 37-659A; a 0.55 cfs portion of ground water irrigation right 37-7017 and to irrigation and domestic ground water right 37-8485 (0.110cfs; 11.1 af). The application includes a hydrologic analysis indicating the connection between the proposed wells and the Big Wood River. Place of use, existing and proposed PODs are located approximately 2.5 to 2.9 miles north and 1.0 to 1.3 miles west of the intersection of Bullion St and Hwy 75 in Hailey.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 79715**

KETCHUM LONG ISLAND LLC, PO BOX 2238, KETCHUM, ID 83340; has filed Application No. 79715 for changes to the following water rights within BLAINE County(s): Right No(s). 71-10919. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes converting a 0.13 cfs & 1.1 acre-foot portion of a Salmon River water right from recreation/aesthetic storage use(s) to irrigation use for the irrigation of 0.94 acres. The property involved with the transfer is located approximately 18.7 miles south and 6.3 miles east of the Highway 21 and Highway 75 intersection in Stanley. A portion of the right was converted from irrigation to recreation/aesthetic storage use(s) to cover evaporative losses associated with a proposed pond project via an approved transfer in 2009. The ponds were subsequently constructed smaller than originally proposed resulting in an excess amount of recreation/aesthetic storage use(s) which are now being proposed to be converted back to the original irrigation use.

All five water rights are appurtenant to 5.0 acres of land located approximately 0.5 to 0.6 miles east and 1.7 to 1.8 miles south of the intersection of Hwy 75 and the Bellevue Gannett Road south of Bellevue. For further information regarding these applications, you may research at the following link, under water rights 37-21680, 37-21689, 37-21698, 37-21671, and 37-21707:

As we discussed, we will need a "206 map" for the Ketchum Long Island LLC transfer that you recently submitted to the Department. The map should show the exact location of the 11.94 acres of irrigation within the 33.6 acre permissible place of use. If you can send the map over in the next couple of weeks, there should not be any additional delay in the processing of the transfer.

Thanks,

Corey

MEMORANDUM

Date: December 17, 2014
To: Transfer 79715 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application proposes converting a 0.13 cfs & 1.1 acre-foot (consumptive use) portion of a Salmon River water right, 71-10919, from recreation/aesthetic storage use(s) to irrigation use for the irrigation of 0.94 acres (rounds to 0.9 acres). The property involved with the transfer is located approximately 18.7 miles south and 6.3 miles east of the Highway 21 and Highway 75 intersection in Stanley. A portion of the right was converted from irrigation to recreation/aesthetic storage use(s) to cover evaporative losses associated with a proposed pond project via an approved transfer in 2009. The ponds were subsequently constructed smaller than originally proposed resulting in an excess amount of recreation/aesthetic storage use(s) which are now being proposed to be converted back to the original irrigation use. The conversion back to irrigation use is based on the same irrigation requirement value of 373 mm/season (1.22 acre-feet/season) used in the previously approved transfer converting from irrigation to recreation/aesthetic storage use(s).

- **Authority to File:**
The application is filed in the name of Ketchum Long Island LLC, the current recorded owner of the right involved with the transfer.
- **Water Right Validity:**
The right involved with the transfer was decreed in the SRBA in March of 1999 and involved in a previously approved transfer in 2009.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. The application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Ketchum-Long Island, LLC Transfer of Water Right No. 71-10919
Project No. 1113-01-2010

Dear Michele,

We have received a copy of the license for water right no. 71-10921. Unfortunately, this license did not consider the proposed transfer to water right no. 71-10919. Therefore, we petition for reconsideration of water right license 71-10921 to include the transfer of water right no. 71-10919 to change mitigation back to irrigation.

As we have discussed in the past, 1.5 acres of irrigation (water right no. 71-10919) was transferred for mitigation of the new water right permit (71-10921). The license exam reported that only 0.56 acres of mitigation was needed. The enclosed transfer seeks to change the excess mitigation back to irrigation of 0.94 acres.

I'm not sure what happened to the original transfer application, but here is a copy of the transfer.

Sincerely,

G. Erick Powell, Ph.D., P.E.
