IDWR/NORTH

MR FRANKLIN-

IT MAY BE OF NO INTEREST TO YOU, BUT I AM GOING TO GIVE YOU A UPDATE ON PERMIT 85-15764.

THE WATER FROM SPRING OF CONCERN IS ONLY $\frac{3}{4}$ DISTANCE TO THE FORSMANN PROPERTY, AND THERE IS NOT A DROP GOING INTO THE POND. THE SUMMER OF 2013 WAS DRY AND HOT. THE SUMMER OF 2014 WAS THE HOTTEST AND DRIEST SUMMER THAT HAS EVER BEEN RECORDED. SO I GUESS THERE IS A REASON THE SPRINGS ARE SO SLOW.

I HAVE A SPRING THAT ^{WAS} DEVELOPED IN 1960'S BUT HAS NOT BEEN IN USE SINCE I BUILT THE POND. IT IS RIGHT ACROSS FENCE FROM SEWER PONDS. I CLEANNED IT OUT AND GOT IT STARTED RUNNING. IT IS RUNNING $\frac{1}{2}$ GAL PER MINUTE JUST OVERNIGHT RUNNING GOT INTO THE FORSMANN PROPERTY, WHICH IS ~~AMPLE~~^{ample} WATER FOR MANY COWS. I LEFT A MESSAGE ON THEIR PHONE BUT NO RESPONSE.

THANKS FOR THE WORK YOU ARE DOING - Wilfred J. Wemhoff
