1. ☒ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____
2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.
Please see attachment

Transfers 79170 and 79182, both filed on right 13-7476, created gaps in supplemental coverage in the NWSW, NESW, and NWSE of Section 23, T14S R38E. This is the second of two transfers filed on right 13-2220 that, through a two-step process, serve to fill in those supplemental coverage gaps in Section 23.

The first step will be to move right 13-2220 onto ground that transfers 79170 and 79182 covered with right 13-7476. Second, upon approval of the two transfers filed on right 13-2220, the applicant requests that transfers 79170 and 79182 be rescinded, thereby moving 13-7476 back to its original, licensed POU, filling in the gaps.

This transfer proposes to rearrange a total of 9.7 acres of right 13-2220 in Section 26, T14S R38E. It will therefore cover the same ground that Transfer 79182 covered with 13-7476.

This transfer also proposes to change the POD from the NESE to the NENE of Section 27, T14S R38E.

Note: The PLSS grid is slightly offset in a Northwest-Southeast orientation from the aerial photography in the attached map.
