Eric,

Are you planning on issuing the license for 95-9320 up there? I ask because it looks like we need to write an order to reinstate the permit and advance the priority date the 13 day's it was late. If you are going to issue the license up there, then you could issue the reinstatement order out of your office and the license and then send down the originals for the file when you are done. I do have a reinstatement order written up if you want to look it over and issue out of your office. Otherwise, I am going to need the original field exam and proof statement before I can issue the reinstatement order.

Let me know what you think.

Thanks,
c
