* This right is not being offered to the Bank as a full proportion. Owner desires to maintain use of this water right in full. However, since it overlaps the other surface water rights in description, a portion must be offered to the Bank. If adding all surface water right acre limits, they total 105.4% of the combined 645 acres allowed under these rights. Only 5.4% of the place of use, or 34.6 acres, actually has overlapping surface water rights. Therefore, water right 34-14191 is being offered to the Bank as a proportionate share of the 34.6 acres on which it overlaps the other water rights.

**The applicant is offering to the bank only the portions of the surface water rights that overlap the ground water rights. The remaining surface water rights will continue to be used.

MEMORANDUM

To: Water Right No(s). 34-4010 and 34-14205

From:  Clay Webster thru Cherie Palmer

Date: December 11, 2014

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received applications from Kristin Moore of Rocky Mountain Environmental for Loy Pehrson to lease parts of these water rights into the WSB on May 13, 2014. We did not receive a copy of the written consent from the Big Lost River Irrigation District. This consent was requested and received on August 20, 2014.

After review we found that only one surface water right needed to be leased with 34-4010 to complete this lease (without the acres offered in section 19). After a phone conference with the consultant on 11/18/2014, she ok'd us to process the lease of 21.6 acres of 34-4010 and 34 acres of 34-14205 to proceed with this lease while her client attempts to prove beneficial use of the other acres offered for the bank in section 19.

Other rights offered to the bank with these included 34-7056, 34-14191 34-14189, 34-14207, 34-14199, 34-14201, 34-14203, 34-14209, 34-14193, 34-14195 and 34-14197 these are awaiting a response from the applicant on the beneficial use of the acres offered for lease in section 19. Due to the decreed dates of 34-7056 and 34-14191, this brought the acres offered for lease in section 19 in to question for non-use. The acres offered in section 19 except for the one acre in the NWNE will not be accepted under this lease.

AUTHORITY TO FILE: These applications were signed by the designated applicants Loy Pehrson and Byron Pehrson.

WATER RIGHT VALIDITY: Rights 34-14205 was decreed by the SRBA in August 2010. These portions are being offered to the WSB to avoid partial forfeiture. Forfeiture is not an issue at this time.

Right 34-4010 was partially decreed by the SRBA in December 2001. Satellite imagery for right 34-4010 shows that the acres offered for lease under this right have been irrigated in the last five years. Forfeiture is not an issue at this time.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 34.

Forfeiture Concerns w/ 34-7056 and 34-14191

Conclusion: Only 57 acres worth of a water right need to be leased into the bank in order to protect from forfeiture because all of the SW rights are not stacked. However, 23 of those acres cannot be accepted into the bank because of forfeiture concerns with 34-7056. We can accept 21.6 acres of 34-4010 into the bank and 34 acres of a SW into the bank for a total combined limit of 34 acres.

Attached is the death certificate for Mallnee Pehrson to have her name removed from the water rights associated with the banking applications submitted this summer on behalf of Byron and Loy Pehrson. I apologize, but I forgot which agent you said had taken over these applications. Can you forward on?

Re: Water Supply Bank Applications

RECEIVED

Dear Agent,

MAY 13 2014

Department of Water Resources
Eastern Region

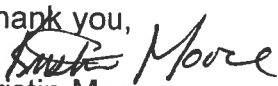

Enclosed are four groups of applications to Lease water into the Water Supply Bank for Loy Pehrson and Byron Pehrson and a check for \$2,000 to cover filing fees. Portions of each of these water rights are offered to the Bank. There are some factors to note that explain the calculations used to determine acreages offered for each water right. Additionally, original signatures for Attachments #1B and #1E are included with the Application for Water Right No. 34-14189 for Loy Pehrson and 34-14205 for Byron Pehrson; copies of these attachments were attached to the remaining applications.

Applicant proposes to Bank the corners of the pivots that are no longer being irrigated within the ground water rights. Overlapping surface water rights are also offered to the Bank as appropriate.

In creating the maps for Attachment #4, it was discovered that the shapefile, available from IDWR GIS Database, does not always correspond to the place of use description for the water rights. The acres per QQ do not match. To determine how many acres are to be offered to the Bank, a reverse approach was used. The irrigated acres are displayed on the map for the portions that WILL NOT be leased to the Bank. A simple subtraction from the place of use description resulted in the number of acres not being irrigated, which is the number of acres proposed to be leased. An attached spreadsheet for each set of applications displays the values determined in this process, along with the acre limits and cfs associated with each water right.

If approved, applicant intends to rent the Banked water to be used on another piece of property that has no water rights.

The applicants have authorized us to act on their behalf in regards to these applications. If you have questions or concerns, please contact me at 524-2353 or through my email kmoore@rockymountainenvironmental.com.

Thank you,

Kristin Moore
