I went on-site with Neil Furniss. The Furniss family own most of the NW 1/4 of Sect 1 T4N R44E & farm it as a unit under a tenant farmer.

Map "A" shows the ground as it now is. All the farmed area appears land leveled. Nick Olson did an earlier field exam for the P.O.D on Mahogany Creek & stated that the ped. is different than the claim.

The original old ditch no longer functions but Neil said it did in 1987. The family is hoping to re-establish the ditch if Decrees are recommended.

Since land has a dramatic different look when compared to 1987 air photo, Agents in charge of recommend will have to decide which maps are best to use for P.O.D.

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.
