Subject: Field exam for water right 63-12513

Good Afternoon Michelle,

This email is in regards to the phone conversation we had on May 21, 2014 regarding water right 63-12513. The final step in completing the water right licensing process is the field exam. During the field exam I will measure diversion rates from the well through the properties water system. I will also observe the properties usage of the water for a final recommendation to the State. To do this, I need someone to grant me access to the properties well and water systems. It should take no more than 90 minutes of their time. I appreciate your assistance and look forward to meeting with your property manager. See my contact information below and feel free to call or write with any questions.

Sincerely,

Patrick Kelly
