RE: WATER RIGHTS 63-12513

To whom it may concern:

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. By issuing licenses, the Department confirms that water rights have been established in compliance with the terms of the permits. The examiner who verified your water use reported that the point(s) of diversion and place(s) of use developed are in locations other than what was described on your permits. Therefore, before licenses can be issued, your permits must be amended to depict your water rights as they were actually developed.

The enclosed Application for Amendment forms depict the point(s) of diversion and place(s) of use and other information as they will appear on the licenses when they are issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them within 14 days. The fee of \$100 has already been paid.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is 208-287-4933.

Sincerely,

Patrick Kelly
Water Resource Agent
