

MEMORANDUM

TO: File 95-16805

FROM: Daniel Nelson – Staff Hydrologist

DATE: December 11, 2014

SUBJECT: Telephone Conversation Memo

On this date, I spoke with Jenny Servine concerning their water system. Ms. Servine confirmed that the fish screen had been installed on the pump, but that she was unaware of the horsepower of the pump they have installed. Therefore, we can move forward on the processing of this permit.
