Sharla,

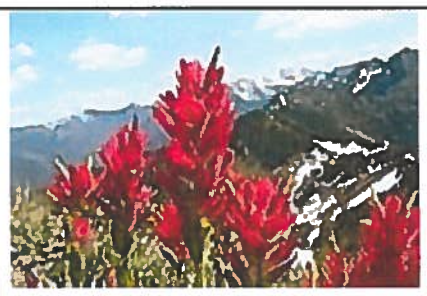

It looks like Permit 67-07905 also needs to be amended because only one of the six developments was constructed. The only one we will be dealing with is Timber Gulch Pond and the POD/POU needs to be amended from the NENESE to the NENESE Sec 14. A field verification with photos and coordinates is attached. I suspect there will need to be a corresponding reduction to the 'Annual Volume' from 1.00 AF to something like 0.02 or 0.01 AF. I will leave that up to the Department to determine. If you agree and would send the appropriate amendment to me I will make sure it gets back to you with the required fee as soon as possible. So that I would track information I have also attached a suggested permit amendment for your perusal.

If there are any questions about this one or 67-07881 please contact me.

I should have 67-07882 to you next week.

Thank you.

Steve

Steve,

Here are the two licensing amendments that are ready for signature. Please note the source on 67-7905 has been changed according to our data entry standards (we don't use gulches as sources, we name them ___ gulch creeks).

And I have added Stockwater Storage as a use to 67-7905 because it made sense to have that on the right just like we do most other BLM and FS rights.

Let me know if you have any questions or concerns. I will place these on call-up for 60 days to allow you to get the signed versions and fees to us.

Thanks for your help.

Sharla
