James Cefalo
Idaho Department of Water Resources
900 North Skyline Drive, Suite A
Idaho Falls, ID 83402-1718

Re: Magee Family Trust

Dear Mr. Cefalo:

Magee Family Trust would like to create a permissible place of use for water rights 34-2399, 34-13961, 34-13963, 34-13762, 34-14343 and 34-2294. The current place of use of water rights 34-2399, 34-13961 and 34-13963 will remain unchanged at 76.7 acres. The current place of use for 34-13762 and 34-14343 will remain unchanged at 56.2 acres. The place of use of 34-2294 will remain unchanged at 5.8 acres.

It is proposed to allow ground water rights 34-2399, 34-13762, 34-14343 and 34-2294 to divert ground water from the two existing wells as points of diversion. The two wells have had flow meters installed on them.

No ESPA model analysis was performed because the wells are within the same ESPA model cell. Therefore, no model analysis is required.

It is further requested that the ownership of water rights 34-14343 be changed into the name of Magee Family Trust.

Copies of current warranty deeds are attached to this letter.

Please copy our office on all correspondence regarding this transfer application.

Sincerely,

Greg Sullivan, M.S., Engineer

Cc: Fran Magee
