

MEMORANDUM

Date: November 26, 2014

To: Transfer 79632

From: Scott Bergendorf

Re: Transfer Analysis

Applicants propose the change to point of diversion for water right 22-14081. The applicants seek to change the POD to a domestic well on the property. Water right 22-14081 is an ownership change split from 22-14026 that was accomplished in 2012.

Authority to file:

The applicants are the current owners of the water rights per IDWR records and owners of property for the proposed POD per Teton County taxlot information.

Water Right Validity:

Water right was decreed in November of 2008 therefore forfeiture is not an issue.

Injury to other water rights:

Injury to other rights is not apparent. The proposed POD is located approximately one mile from the current POD. Transfer was advertised and no protests were filed. POU will remain the same.

Enlargement of Use:

The proposed change will not result in enlargement of use. Neither rate nor acres will increase as a result of the transfer.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
