DEPARTMENT OF
WATER RESOURCES

Dear Ms. Edl,

Please see the enclosed reply to your email sent Nov. 17, 2014.

I have made notations by your questions, copied the pic and numbered the locations corresponding to the answers to the questions.

I hope this is satisfactory and that you are now, finally, able to issue the permit 95-16809.

We are currently away from our Idaho home for the winter and would not be able to assist anyone who came out, thus, we do hope that will not be necessary.

Sorry this is "snail mail", we do not have a scanner or fax at our residence.

We look forward to your acknowledgement to us that you have received this information and that we have met all requirements necessary to issue out permit.

Sincerely,

Tom and Marie Flanagan

Mr. and Mrs. Flanagan,

I have been assigned to review and if possible to issue the water right license for permit 95-16809. This permit authorizes irrigation of a small portion of your Post Falls property using water taken from the Spokane River. I believe that I can issue the license without the need for anyone to make a special trip to your property. I have completed the initial review and I would appreciate it if you could clarify a few things for me.

I have attached a screenshot of your property which I hope you can use to identify 3 locations.

- *1) the approximate location of where you set the pump to draw from the Spokane River. I am guessing that it is from your boat dock. *No, in the river off our care, see #1 on pic.*
- 2) the place-of-use of your sprinkler irrigation. I am guessing that it's the front yard area adjacent to the street. *YES*
- *3) the approximate location of your domestic well. You have filed an Northern Idaho Adjudication claim for its use and its existence helps make the case for this simplified, desk-top review. *In our front yard, just off the road leading to our driveway. See #3 on pic.*

If you are not able to open the attachment or to print the attachment, please let me know. I would be happy to send you a copy through traditional mail.

Please mark on the image and either scan it into a return email, fax it to 208-287-6700 or return it via traditional mail to my attention at the address below.

Idaho Department of Water Resources
322 East Front Street
Boise, ID 83720

Thank you.
Michele Edl
