RE: Water Right Permit No. 15-7079

On November 17, 2014 the Department received from you a request to reinstate permit 15-7079, an assignment of permit 15-7079 from Grant Weeks to you, a statement of completion for submitting proof of beneficial use, a beneficial use field report, and the required fees associated with those forms.

The Department has determined that your cause for filing a late proof of beneficial use was reasonable, and has reinstated the permit. Please see the attached Order for more information.

In examining the beneficial use field report in preparation for the issuance of a license for permit 15-7079, it was noted that beneficial use was developed outside of the land described on the permit. Specifically, irrigated acres were developed in the NENE of Section 13, Township 14S, Range 35E.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100 filing fee within 14 days.

If you have any questions, please call me at (208) 525-7161.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Cooper Fritz', is written over a horizontal line.

Cooper Fritz
Water Resources Agent
