RE: License No. 82-7205

Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license. Also enclosed is a copy of the approved application for amendment.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4951.

Sincerely,

Pamela Skaggs
Water Rights Supervisor

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right Permit No. 82-07205

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the point of diversion was found in a different 40 acre tract as described in the water right permit. The point of diversion was located using Global Sattelite Positioning (GPS). The point of diversion is also clearly seen on the aerial photography for this area.

The enclosed Applications for Amendment form depict the elements of the water rights as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please contact me.

Chris,

Thank you so much for sending me this email. I have attached a scanned copy of the amendment needed to license the Newsome Fish Hatchery. The reason for the amendment is that the point of diversion for this hatchery was supposed to be located in the SWNE quarter of Section 31, Township 30 North, Range 7 East, however, the point of diversion was actually developed in the NWNE quarter of Section 31, Township 30 North, Range 7 East. This needs to be corrected before we can move forward with licensing of this water right.

Please note that this amendment was supposed to have been returned with 14 days of the date the letter was sent or by October 24. I have been given permission to allow you until November 28, 2014 to return this amendment and the \$100 amendment fee. At this time, I can't promise that any more additional time can be granted, but you can make a request for more time, and I will see what I can do.

I also wanted to let you know that I am also working on the Yoosa Creek Hatchery. This hatchery has two water right permits, one permit is from Yoosa Creek and the other permit is from Camp Creek. It does appear as though there could be one or two amendments on these two water right permits also, but I can't tell you that until I finish my review of the field work. I am hoping to complete that work by the end of next week. If there is another amendment, I will send a copy by regular mail as required by law, and a copy to these email addresses.

If any of you have any questions, please don't hesitate to contact me.

Thank you.

The reason for the amendment is that the point of diversion for this hatchery was supposed to be located in the SWNE quarter of Section 31, Township 30 North, Range 7 East, however, the point of diversion was actually developed in the NWNE quarter of Section 31, Township 30 North, Range 7 East. This needs to be corrected before we can move forward with licensing of this water right.

Please note that this amendment was supposed to have been returned with 14 days of the date the letter was sent or by October 24. I have been given permission to allow you until November 28, 2014 to return this amendment and the \$100 amendment fee. At this time, I can't promise that any more additional time can be granted, but you can make a request for more time, and I will see what I can do.

I also wanted to let you know that I am also working on the Yoosa Creek Hatchery. This hatchery has two water right permits, one permit is from Yoosa Creek and the other permit is from Camp Creek. It does appear as though there could be one or two amendments on these two water right permits also, but I can't tell you that until I finish my review of the field work. I am hoping to complete that work by the end of next week. If there is another amendment, I will send a copy by regular mail as required by law, and a copy to these email addresses.

If any of you have any questions, please don't hesitate to contact me.

Thank you.

Subject: Hatchery water rights

Hello Dan,

In follow-up to our phone call today, you can email the water right amendment documents you mentioned (e.g. for Newsome Creek and Yoosa Creek) to me and those in the cc line who are involved with the hatchery water rights for BPA.

Once we receive the documents, we will coordinate on the response for you.

Thanks,
Chris
