Total Annual Combined Limit				0.72 cfs	145.6 af		41.6 ac

Annual Combined Rental Totals

0.72 cfs 145.6 af* 41.6 ac

Rental Fee: Years 2014 \$2,475.20

The fee for rental of the above-described water is \$2,475.20. Ten percent (\$247.52) will go to the Department for administrative costs, and the remainder will be paid to the lessor(s). Detailed water right conditions are attached.

*Water rights 34-282C and 34-425E are stacked with water rights 34-2438 and 34-10795 and cannot be rented on their own. For the purposes of this Rental Agreement, water rights 34-282C and 34-425E do not add a benefit and will not be diverted.

CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
11. The right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the

Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

12. This rental agreement does not authorize the construction of a well.
13. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
14. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.

MEMORANDUM

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received the applications to rent these rights, from SPF Water Engineering on behalf of Moss Farms Inc, on May 22, 2014 from the water supply bank.

This rental is to cover an area that had the surface water rights (34-182 and 34-381A) temporarily transferred May 22, 2014 to cover the curtailment of surface water rights 34-368, 34-369 and 34-370.

AUTHORITY TO FILE: Applicants state that they own the place of use, tax-lot information from the county is not updated after 2012. I trust that the applicant would not go to the expense to rent water for property they are not authorized to use it on.

WATER RIGHT VALIDITY: 34-282C and 34-452E, 34-2438 and 34-10795 were recently leased into the bank for 5 years

INJURY TO OTHER WATER RIGHTS: After discussing this rental with Nick Miller, the Department's Water Distribution Section Manager, the diversion of surface water rights through the Antelope and 3-in 1 canals were shut off in early May, 2014. Therefore, injury through delivery of the surface water is not possible and cannot cause injury. However, these surface water rights will have to be idled because they are stacked with the ground water rights. No injury is apparent for the ground water rights.

ENLARGEMENT OF USE: I checked aerial imagery and found that the lessors have idled the acres according to their lease contract.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right(s) are subject to Water District # 34. James Cefalo at the Eastern Region Office had reservations about the resumption of use of these rights after 2011. See e-mail dated 7/29/2014. However, the surface water rights were partially decreed in 2009. Additionally, these rights were being irrigated in the last five years without the department taking action previously to declare the rights forfeited. The past water-master had attempted to assist the Bingham in irrigating the corners without success. This showed a defense to the forfeiture issue. After discussion with Nick Miller, he confirmed that Roger Totten had attempted to get the water to reach the corners of the pivots. However, the water sank before it reached those areas.

Re: Water Supply Bank Rental Applications

Dear Agent,

Enclosed are two applications to Rent Water from the Water Supply Bank using water right nos. 34-282C, 34-452E, 34-2438, and 34-10795. Applicant has a verbal agreement with Max Bingham, owner of said water rights, to rent these rights on an annual basis through the Bank.

The proposed place of use (Location A) currently has surface water and ground water rights appurtenant to it in part. The delivering ditch cannot deliver the surface water rights in full for most of the season. As this year has been declared an emergency drought, the applicant proposes to transfer the surface water rights to another place of use (Location B) where they can be delivered for the entirety of the season. There are no ground water rights appurtenant to Location B.

The proposed rental will apply surface water and ground water to 41.6 acres at Location A. Surface water will be delivered when possible and ground water will be used the remainder of the time.

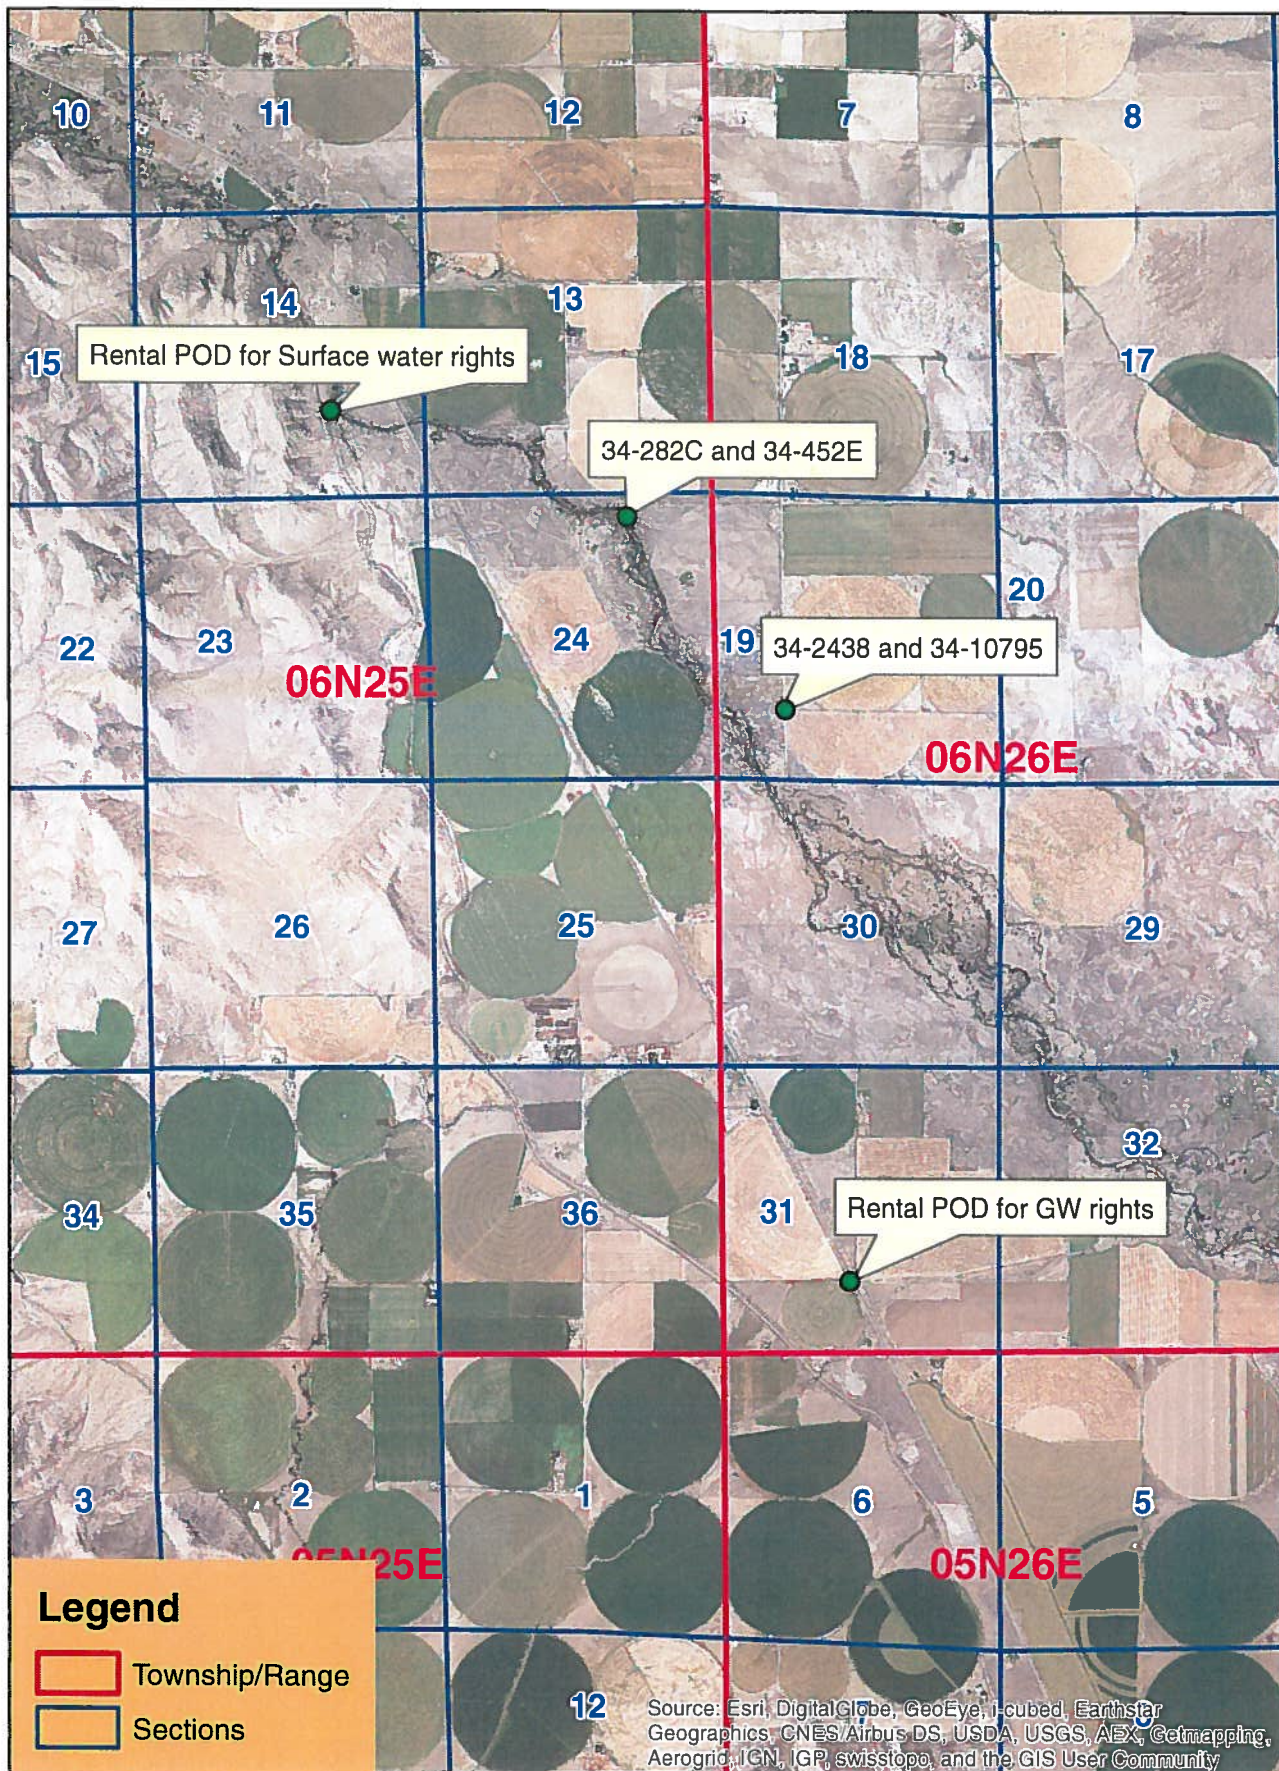

If you have questions or concerns, please contact me at 524-2353 or through my email kmoore@rockymountainenvironmental.com.

Thank you,
