Subject: Applicatin for Permit 36-17002

Chuck,

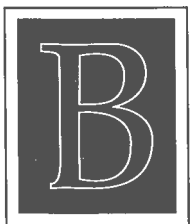

As you recall you recently filed an Application for Permit on behalf of Rangen, Inc. seeking to appropriate 59 cfs of spring water tributary to Billingsley Creek. Preliminary review and processing of this application has been completed. The application has been assigned number 36-17002. You should receive notice in the near future informing you of when the application will be advertised and the resulting protest deadline. Because the application seeks to appropriate an amount of water in excess of five cfs, the applicant must provide additional information pursuant to Rule 40.05 of the Water Appropriation Rules, available at the following internet link:

<http://adminrules.idaho.gov/rules/current/37/0308.pdf>

The submittal of this additional information as soon as possible will help prevent any unnecessary delays in the processing of the application.

If you have any questions, feel free to contact our office (208)736-3033.

Corey
