Re: Water Right Permit No. 98-7844

Mr. & Mrs. Tajan,

As we discussed on September 25, 2014, the aerial photography and the fact we were on-site in 2007, it does not appear that more than ½ acre is being irrigated.

You can amend the Permit to be for domestic only and this will allow you to use the water in your home and irrigate up to ½ acre, plus stock water. We also need the amendment because the place of use on the Permit does not include the main portion of the place of use, and your house. I have enclosed an aerial photo of your property and it hopefully explains this better. The Amendment does require a \$100.00 statutory filing fee that must be submitted with the Amendment.

Please do not hesitate to contact me if you have any questions.
