

MEMO

September 25, 2014

To: File No. 98-7844

From: Greg Taylor *g.t.*

After reviewing the aerial photography the decision was made to call Mr. and Mrs. Tajan because we could not see where they were irrigating one acre.

I explained that we could issue a License Preliminary Order for Domestic purposes that would allow them to irrigate $\frac{1}{2}$ acre and use in their home and water livestock. They agreed that they weren't irrigating more than $\frac{1}{2}$ acre. I also explained that the place of use on the permit was not complete/correct because their place of use is in two $\frac{1}{4}$ $\frac{1}{4}$ of section 5.

I will be sending the Tajans an amended permit for these changes and they have the opportunity to review and sign or discuss this further with the Department.
